INDEX

ATP as energy source in cell division, 366.
Activation, mechanism of in Chaetopterus egg, 87.
Activation of Spisula egg, 213.
Adenosine triphosphate, dephosphorylation of by tissues of cockroach, 166.
Aging, physiological, in adult worker honey bee, 154.
Alga, photosynthesis and phototaxis in gametes of, 103.
Algae as food for Balanus larvae, 420.
Algae, Vaucheriae, in New England salt marshes, 395.
ALLEN, ROBERT DAY. Fertilization and artificial activation in the egg of the surf-clam, Spisula solidissima, 213.
Amino acid content of Teredo, 316.
Amino acids, oxidation of by marine animals, 390.
Amoebocytes of quahog, cholinesterase and lipase in, 200.
Amphibian gastrulae, reactions of to metabolic poisons in vitro, 466.
Amphibian larvae, Xenopus laevis, macrophage behavior in, 490.
ANDERSON, JOHN D., AND C. L. PROSSER. Osmoregulating capacity in populations occurring in different salinities, 369.
ANDERSON, JOHN MAXWELL. Structure and function in the pyloric caeca of Asterias forbesi, 47.
Annelid, effect of x-rays on anterior regeneration in, 80.
Annelid egg, mechanism of activation and nuclear breakdown in, 87.
Annelid, permeability of coelomic fluid cells of, 128.
Annelid, ploychaetous, from Lake Erie, 149.
Annual Report of the Marine Biological Laboratory, 1.
Anterior regeneration in Aulophorus, as affected by x-rays, 80.
Anticoagulant, release of from irradiated Spisula eggs, 380.
Antimitotic substances in ovaries, 375.
Antimitotic substance in puffer ovary, 372.
Apis mellifera, physiological aging in, 154.
Apyrase activity of squid mantle muscle, 392.
Aqueous phase, chemoreception in, 115.
Ascidians, particle filtration in, 477.
Aspects of physiological aging in adult worker honey bee, 154.
Assay of growth and differentiation hormone of Lepidoptera by tissue culture, 174.
Asterias forbesi, structure and function in pyloric caeca of, 47.
Aulophorus furcatus, regeneration of anterior end of, 80.
Axone, squid, elastic and ionic studies on, 370.
Axoplasm of squid giant axone, structure of as revealed by spontaneously formed vesicles, 376.

BARNACLE, growth and molting in, 420.
BARNES, LOY J. A further study of the effects of centrifugation and low temperature on the development of Fundulus heteroclitus, 370.
Basal metabolism, tissue repiration and growth, 240.
Bats, feeding efficiency of, 364.
Beetle, chemoreception in aqueous and gas phases by, 115.
BENNETT, MIRIAM F. *See* H. MARGUERITE WEBB, 386; FRANK A. BROWN, Jr., 371.
